EMPLOYMENT

- ANALYSIS & INFERENCE, INC.**, Springfield, PA 2008-Present
SENIOR ANALYST
Project, Data Manager, and Analyst for consulting engagements.

Analysis & Inference, Inc. provides authoritative research and consulting services in statistics nationwide to corporations, government agencies, and organizations. The firm is skilled at presenting complex ideas to non-experts. Capabilities include statistical modeling and analysis of data, data mining, probability, sampling, statistical significance, validity and reliability, forecasting and time series, quality control, survey and experimental design, regression. Principal topic areas have been surveys, discrimination, insurance, healthcare, theft and fraud, risk analysis, product liability, telecommunications, commercial litigation and damages, public policy, and education.
- SUNTRUST BANKS, INC.** 2005 – 2008
Credit Risk Management, Atlanta, GA
VICE PRESIDENT
As part of the Credit Analytics and Data group within the Credit Risk Management division, provided analysis of portfolio composition, portfolio dynamics, and credit quality. Senior business analyst role for the creation of an Enterprise Data Warehouse (EDW) encompassing all areas of credit risk including Commercial, Retail, Consumer, Mortgage, and Capital Markets. Focused on Default & Delinquency and Obligor Group subject areas. Conducted vendor selection analysis on data enhancement (e.g., legal relationships between companies) to improve in-house data and assist Relationship Managers during

loan origination and booking. Acted in a business and technology role on a team responsible for creating a new Total Borrower Exposure policy for the bank to approve and track credit concentration risk. Analyzed, documented, and recommended changes to bank's approval and reporting of Counterparty and International Risk. Continuously acted as a liaison between Credit Risk Management, Finance, Technology, consultants, and system vendors. Utilized DB2, SQL, and MS Access on a daily basis to create/run reports and analyze data/trends. Trained on COGNOS.
